**Subject** : Construction of a New Plant

---

In order to continue growing and profitability, our Company will implement an investment of 6 million USD with the purpose of manufacturing equipment with high added value. 3 million USD part of the planned investment is implemented with the purchasing of 17,500 m2 land adjacent to our existing production plant on 3/5/2010 and the remaining 3 million USD part is planned as 10.000 m2 closed area and machinery and equipment investment. Due to the planned plant, an increase of 30% for the first year is expected in the existing production capacity and 300 units of special type equipment is planned to be manufactured. The plant, which will provide an additional employment for approximately 100 individuals and will be constructed by June 30, 2011, will be in operation starting from July, 2011. Groundbreaking of our new plant will take place in March.
